Dial in option: +1 646 876 9923 Meeting ID: 827 2187 3587 Password: 910654

This workshop - the fifth public event in support of the ongoing Dartmouth Master Plan - is more than a one-time event.

Focusing in on the services & facilities and transportation & circulation chapters, we have curated a series of digital engagement portals as an expanded way to hear from you on questions such as: What areas in town are in need of services? How can Dartmouth improve busy roadways?

Access the workshop engagement hub at www.srpedd.org/dartmouthmp/transpo from March 8 to April 18.

The extended digital workshop includes a real-time virtual public meeting on March 18, 2021, accessible at 6:00 PM at the zoom link provided above.

The workshop will start with a presentation of existing transportation and services and facilities conditions, and then transition to facilitated small-group discussions of ideas for improving automobile, bicycle, and pedestrian travel routes, and for enhancing Dartmouth's community services and facilities.

*A Master Plan is a long-range policy document that guides community decision-making. It describes the experience of living in town today, and articulates the strategies, actions, and priorities that will propel Dartmouth toward the optimal vision of its future.
