South Coast Rail Corridor Plan
Five-Year Update of Community Priority Areas
Freetown

This map is for the sole purpose of aiding regional planning decisions and is not warranted for any other use. June 2013
Federal Disclaimer, Title VI and Nondiscrimination Notice of Rights of Beneficiaries, Spanish and Portuguese Requests for Translation

The preparation of this report has been financed through Massachusetts Department of Transportation South Coast Rail Technical Assistance funding program. The contents of this report do not necessarily reflect the official views or policy of the MassDOT.

Southeastern Regional Planning and Economic Development District (SRPEDD) states its policy to uphold and assure full compliance with Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, Executive Order 13166 and related federal and state statutes and regulations in that Title VI prohibits discrimination in federally assisted programs and requires that no person in the United States of America shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving federal assistance. Massachusetts law also prohibits discrimination based on race, color, and/or national origin, and SRPEDD assures compliance with these laws and related federal and state civil rights laws prohibiting discrimination based on sex, age, and/or disability. Individuals who feel they have been discriminated against in violation of Title VI must file a complaint within 180 days with the SRPEDD Title VI / Nondiscrimination Coordinator.

SRPEDD also upholds the Massachusetts Public Accommodation Law, M.G.L. c 272 §§92a, 98, 98a, and the Governor’s Executive Order 526, section 4 which provide that access to programs, services and benefits be provided without regard to religious creed, sexual orientation, gender identity or expression, veteran's status and/or ancestry, along with the bases previously referenced. Public accommodation concerns can be brought to SRPEDD’s Title VI / Nondiscrimination Specialist. Complaints must be filed with the Massachusetts Commission Against Discrimination (MCAD) within 300 days of an alleged violation.

For information or to file a complaint under Title VI or the state Public Accommodations law, the contacts are as follows:

Southeastern Regional Planning and Economic Development District (SRPEDD) would like to acknowledge the following groups whose support and participation made this report possible.

Local officials and citizens who contributed knowledge, enthusiasm, and hard work to every aspect of this project.

Massachusetts Department of Transportation (MassDOT)
Secretary Richard Davey
Jean Fox, South Coast Rail Manager

Executive Office of Housing and Economic Development (EOHED)
Secretary Greg Bialecki
Victoria Maguire, State Permitting Ombudsman

SRPEDD’s Comprehensive Planning Team
Steve Smith, Executive Director
Sandy Conaty, Comprehensive Planning Manager
Bill Napolitano, Environmental Program Director
Don Sullivan, Economic Development/Community Development Director
Grant King, Principal Comprehensive Planner/Information Specialist
Katie Goodrum, Senior Comprehensive Planner
Karen M. Porter, GIS Specialist/IT Manager

SRPEDD would also like to acknowledge the participation of Old Colony Planning Council and Metropolitan Area Planning Council.

This South Coast Rail Corridor Plan Community Priority Area Five-Year Update was completed with the assistance of SRPEDD, with funds provided by the Commonwealth of Massachusetts, MassDOT South Coast Rail project and with support by EOHED.

INTRODUCTION

This report presents the updated Priority Development Areas (PDAs) and Priority Protection Areas (PPAs) in the town of Freetown. This community-driven land use planning exercise first took place in 2008, when three Regional Planning Agencies, SRPEDD, MAPC, and OCPC, worked alongside local residents, business owners, officials, and organizations to designate the areas that were most important for development or preservation in each community. All thirty-one (31) South Coast Rail (SCR) Corridor communities participated in this project in 2008 and again in 2013.

In 2013, the three Regional Planning Agencies (RPAs) revisited these 31 communities to review and update the 2008 designations. Updates took into account new data that became available over the last five years as well as new municipal priorities. The “Five-Year Update” process was an opportunity to confirm choices made during the 2008 process, to revise previous designations, and to make new choices that acknowledged new conditions. During this review process, the SRPEDD website provided current information to the public, including a calendar of SCR Five-Year Update meetings and a resource library of relevant information sheets and maps.

What are Priority Development Areas (PDAs)?

Priority Development Areas (PDAs) are areas that are appropriate for increased development or redevelopment due to several factors including good transportation access, available infrastructure (primarily water and sewer), an absence of environmental constraints, and local support. PDAs can range in size from a single parcel to many acres. Potential development ranges from small-scale infill to large commercial, industrial, residential, or mixed-use projects. Town and village centers, Chapter 40R Districts, industrial parks, and proposed commuter rail station sites are typical examples of PDAs.

What are Priority Protection Areas (PPAs)?

Priority Protection Areas (PPAs) are areas that are important to protect due to the presence of significant natural or cultural resources, including endangered species habitats, areas critical to water supply, historic resources, scenic vistas, and farms. Like PDAs, the PPAs can vary greatly in size. Sites may be candidates for protection through acquisition or conservation restrictions.
**What are Combined Priority Development and Priority Protection Areas (Combined Areas)?**

In Combined Priority Development and Priority Protection Areas, communities welcome development; however, the development is expected to be sensitive to its site and the surrounding area. This may include development that complements the older structures within a historic district or low impact development that protects nearby water resources or biodiversity.

**What do PDAs and PPAs do for my city or town?**

A community’s Priority Area designations can guide municipal decisions about zoning revisions, infrastructure investments, and conservation efforts. For example, some communities choose to incorporate these designations into their Master Plan. Also, municipalities are implementing these designations using technical assistance available through State funding programs such as the South Coast Rail Technical Assistance and District Local Technical Assistance (DLTA).

In addition, the Community Priority Areas serve as the foundation for developing Regional and State Priority Area designations. Lastly, through Executive Order 525 (see below), the Patrick Administration asked certain state agencies to consider priority areas when making funding commitments.

**Regional and State Priority Areas**

The Community Priority Areas are essential to the process of determining the Regional and State Priority Area Maps. Local designations determined to be of regional significance through a regional screening process, including public input received at regional public workshops, make up the Regional Priority Areas map. In turn, the Community and Regional Priority Areas are the basis for the State Priority Area Map.

**Executive Order 525 (E.O. 525)**

In fall 2010, Gov. Patrick issued Executive Order 525 (E.O. 525) providing for the implementation of the South Coast Rail Corridor Plan and Corridor Map (Corridor Plan) through state agency actions and investments. The Executive Order calls for state investments to be consistent with the Corridor Plan’s recommendations to the maximum extent feasible. These state actions have the potential to leverage local and private investments in the priority areas. The Executive Order also directs state agencies to conduct a retrospective analysis to determine how consistent their actions and investments in the region have been with the Corridor Plan goals.
PRIORITY AREA REVIEW PROCESS

SRPEDD staff worked with cities and towns to review their Priority Areas identified in 2008. Amendments to Priority Areas included delineating more precise boundaries using Geographic Information Systems (GIS) data. RPAs used interactive GIS maps to present over forty layers or information including, but not limited to, ortho photography, parcel lines, zoning districts, state program areas (such as Growth District Initiative and Chapter 40R sites), and designated resource areas (such as high-yield aquifers, Zone II aquifers, BioMap 2 Core Habitats, and rivers and streams with their associated wetlands). Communities also worked to clarify the stated purpose for each Priority Area.

The process included a series of three meetings:

#1: Introductory meeting: A Regional Planning Agency staff member visited with Boards of Selectmen and Mayors to reintroduce the land use planning process that took place in 2008 and the reasons for conducting the Five-Year Update of Priority Area designations.

#2: Preliminary Meeting: SRPEDD staff facilitated a 2-3 hour working session with municipal staff and/or board and committee/commission members to review each priority area. Staff incorporated interactive GIS maps depicting various data layers (see Appendix) to inform discussions and decision-making. This preliminary process of updating the 2008 Priority Area designations had the following general guiding principles in mind:

- Incorporating changes in municipal priorities, needs, and desires
- Understanding updated state policies such as Executive Order 525
- Refining priority area boundaries to be exact and “rational” (coterminous with other map layers such as roadways, zoning boundaries, designated resource areas, etc.)
- Making clear and strategic statements about the stated purpose for and desired character of priority areas

For the few SRPEDD communities without town staff, SRPEDD did this preliminary review at a public meeting in the community; then, using the criteria outlined by meeting participants, SRPEDD made the remaining changes and returned revised maps and a narrative description of the revisions to the municipality for their review prior to the workshop with the general public. SRPEDD staff used the input from the preliminary meetings to generate a “before” and “after” map to present to the public for their feedback and input.

#3: Public Meeting Review: Each community held a public meeting, at which time RPAs and local meeting participants reviewed each community’s priority areas and identified desired changes. Some communities incorporated this into a Board of Selectmen meeting, others
during a Planning Board meeting, and some communities held a public meeting held specifically for this purpose.

**TOWN OF FREETOWN RESULTS**

On December 17, 2012, SRPEDD staff met with the Board of Selectmen (BOS) to re-introduce the Priority Area planning exercise. The BOS designated the Town Administrator, Richard Brown, as the contact person for this work. The preliminary municipal meeting was held on March 11, 2013 at the SRPEDD offices. Participants reviewed the purpose and the boundaries of each 2008 Priority Area. In discussions, they clarified the purpose of each and adjusted the respective boundaries to coincide with the stated purpose.

The town of Freetown held a public meeting to seek input from town residents on the revisions recommended by the municipal representatives on May 21, 2013 at the Freetown Town Hall. No revisions were requested for any of the priority areas. The consensus of the meeting attendees was that the 2013 Priority Area map depicts the boundaries of areas deemed to be priorities for development and for preservation. The result of this work is the 2013 Freetown Community Identified Priority Area Map, which can be found on page 2 of this document.

**PRIORITY AREA ADJUSTMENTS**

As stated above, the 2013 Priority Areas (PAs) are based upon the PA designations identified in 2008. Many of these PAs still represent municipal growth priorities today. In most cases, revisions made to the PAs simply transition them from the “general designations” of the 2008 process to more “exact designations” (both in terms of their boundaries and their stated purposes) using current Geographic Information Systems data and updated local input. In some cases, communities added new PAs or removed previous designations because (1) municipal priorities changed over time, (2) the purposes for designations were achieved or new ones arose, or (3) designations were incorporated into other PAs identified for the same purpose. The text below lists the updated 2013 PAs, identifies their stated purposes, describes their boundaries, and details changes from the 2008 Priority Areas.
PRIORITy DEVELOPMENT AREAS

Assonet Village Small Business District [102-01]

Purpose: Neighborhood scale businesses.

Boundaries: Boundaries correspond to the Village Business Zoning District in Assonet.

Changes from 2008: Community representatives changed this priority designation from Combined PDA/PPA to PDA in order to correspond with the intent of the Village Business Zoning District. The purpose was simplified from “Mixed-use opportunities, including small-scale, low impact retail, service and development.” The area was greatly reduced.

Bio Park [102-02]

Purpose: Economic Development and Research and Development.

Boundaries: Boundaries correspond to parcels within the EOHED GDI site.

Changes from 2008: Community representatives chose to change this priority designation from Combined PDA/PPA to a PDA in order to correspond with the intent of the abutting Growth Districts Initiative (GDI) site located in Fall River. They renamed this PA, formerly Fall River Executive Office Park, in order to more clearly describe its purpose. Previous boundaries extended approximately twice as far east.

Braley Road Industrial District [102-03]

Purpose: Industrial Development.

Boundaries: Boundaries correspond to the Industrial zoning district and contain an EOA.

Changes from 2008: Community representatives revised the name from Braley Road Industrial Area and refined the boundaries to correspond to the zoning district.

East Freetown Business District [102-04]

Purpose: Business development.

Boundaries: Boundaries correspond to the Business Zoning District.

Changes from 2008: Community representatives renamed this PA to better describe its location and purpose. The 2008 PA was named Mixed-Use Area and its purpose was “mixed use.” The area was reduced from a larger oval area to boundaries were altered to correspond to the zoning district.
**East Freetown Small Business District [102-05]**

*Purpose:* Neighborhood scale business.

*Boundaries:* Boundaries correspond to the Village Business Zoning District in East Freetown.

*Changes from 2008:* In 2008, this was a significantly larger Combined PDA/PPA called East Freetown Village. The community renamed this PA and revised its purpose from “potential mixed-use village redevelopment area” to more clearly describe its purpose and location.

**Industrial-2 District [102-06]**

*Purpose:* Business and industrial economic development.

*Boundaries:* Boundaries correspond to parcels within the Industrial-2 (I-2) Zoning District and the abutting Industrial (I) Zoning Districts, including those designated as an EOA and a Chapter 43D PDS.

*Changes from 2008:* Community representatives renamed this PA and changed this it from Combined PDA/PPA to PDA in order to correspond with the intent of the Industrial-2 Zoning District. This area covers the 2008 Ridge Hill Road Redevelopment Area and a portion of South Main Street Business Corridor PDAs.

**Lower County Road [102-07]**

*Purpose:* Infill development with a mix of residential and business opportunities.

*Boundaries:* Boundaries correspond to the General Use Zoning District.

*Changes from 2008:* In 2008, this was the Lower County Road Redevelopment Area PDA, approximately the southern half of the current area, and the Freetown Screw Site Combined PDA/PPA. The community combined these areas into one PA and altered the boundaries to correspond to the zoning district.

**Planned Mixed-Use District [102-08]**

*Purpose:* Compact development with pedestrian opportunities and a mix of uses.

*Boundaries:* Boundaries correspond to the Planned Mixed-Use (PMUD) Zoning District, portions of which are designated as an EOA and Chapter 43D PDS (both split with the Riverfront Business Park PDA).

*Changes from 2008:* Community representatives renamed the 2008 Rte. 79 TOD PDA and revised its purpose to more clearly describe the location and purpose. The current area
covers part of the 2008 Riverfront Executive Park & Peace Haven Combined PDA/PPA (see below).

**Riverfront Business Park [102-09]**

*Purpose:* Economic Development.

*Boundaries:* Boundaries correspond to parcels within the Industrial Zoning District, including those designated as an Economic Opportunity Area and Chapter 43D Priority Development Site (both split with Planned Mixed-Use Development PDA), excluding a 300’ buffer from the shoreline of the Taunton River (see Peace Haven Riverfront Protection PPA).

*Changes from 2008:* Community representatives chose to separate this priority designation from the 2008 Riverfront Executive Park & Peacehaven Combined PDA/PPA, creating a new PDA and to designate a separate Peacehaven Riverfront Protection PPA to acknowledge the area’s natural and cultural significance. The eastern section became part of the new Planned Mixed-Use District PDA.

**South Main Street Business District [102-10]**

*Purpose:* Business development.

*Boundaries:* Boundaries correspond to the Business Zoning District.

*Changes from 2008:* Community representatives renamed this area from South Main Street Business Corridor and greatly decreased its area. Community representatives changed this priority designation from a Combined PDA/PPA to a PDA in order to correspond with the intent of the Business Zoning District and altered the boundaries to follow the zoning district.

**Priority Protection Areas**

**Open Space and Recreation Districts [102-11]**

*Purpose:* To protect open space, habitats, and recreation opportunities.

*Boundaries:* Boundaries correspond to all portions of the Open Space and Recreation zoning district not covered by other Priority Areas.

*Changes from 2008:* This is a new PA in 2013.
**Outstanding Resource Water [102-12]**

*Purpose:* To preserve public drinking water resources, open space, and habitats.

*Boundaries:* Boundaries correspond to DEP Outstanding Resource Waters, excluding those areas already included in the Open Space and Recreation Districts PPA, East Freetown Small Business PDA, East Freetown Business District PDA, Braley Road Industrial District PDA, and Lower Country Road PDA. This expansive designation includes BioMap 2 Core Habitats and Critical Natural Landscapes, NHESP Vernal Pools, Zone A Surface Water Protection Areas, and High- and Medium-Yield Aquifers.

*Changes from 2008:* Four 2008 PPAs - Fall Brook Water Resource, East Freetown Water Resource, Rocky Woods, and Route 140 Priority Habitat - were combined into one PPA. Community representatives renamed this PA in order to more clearly describe its purpose.

**Peacehaven Riverfront Protection [102-13]**

*Purpose:* To acknowledge the area’s natural and cultural significance.

*Boundaries:* A 300 foot buffer along the Assonet River.

*Changes from 2008:* Community representatives chose to designate a separate Peacehaven Riverfront Protection PPA out of the former Riverfront Executive Park & Peacehaven Combined PDA/PPA.

**DELETED PRIORITY AREAS**

**Acidic Fen PPA, Cranberry Bogs and Jacob’s Mountain PPA, and South Main Street Water Resource PPA:** The community chose to remove these three PPA designations and replace them with the extensive Open Space and Recreation Districts PPA – designations that have the support and authority of existing municipal zoning.
