

FFY2024-2028 Transportation Improvement Program (TIP)

Proposed Amendment #1

Released for Public Comment: October 17, 2023

Inclusion of RAISE Grant, \$1,749,360, into FFY24 for the City of New Bedford Blue Lane Working Waterfront Connector.

The project will fund pre-construction activities including topographic survey, engineering design, environmental permitting, benefit-cost analysis, and public outreach for an approximately 1.76-mile complete streets roadway rehabilitation project.

The BLWWC Project will fill the last north-south gap in the City's BlueLane network. The BLWWC connects the Blue Lane's existing CoveWalk and HarborWalk and will provide safe and convenient access to the working waterfront, Port of New Bedford, and nearby neighborhoods and the MBTA commuter rail platform.
